Find out more about each sub-topic on web-page

Course structure

Participants will be invited to a web-based course portal.

The course portal gives access to the pre-recorded presentations and invitation to the live streaming events.

Instructions on how to use the course portal will be sent out to participants prior to course start.

The participants can freely watch and listen to pre-recorded presentations during the time the course is open.

Questions and discussions can be started and completed through the course portal. SKB's experts will respond via the course portal.

Participant profile

The digital online training course shall satisfy all type of employees in waste management organisations with some experience in the field, and with the need to understand the greater challenges and diverse topics involved.

The presentations will be designed to please and give an insight to all categories of profession; project managers, administrators or field experts who need to be able to communicate the greater picture of a waste programme.
